When I first [registered](#) to CPALeal, I was skeptic, I could not figure out why people will fill surveys to get things on the internet for free, but the system is working perfectly and the best thing is that CPALeal pays on time!

My first website that made money online with CPALeal was about how to solve a Rubik's cube. I offered my site's visitors exactly what they came for – the complete step by step manual with pictures and instruction on how to solve the Rubik's cube. In the first few days I made 13.93\$, but after few weeks when I got more visitors to my site the earnings were sky rocking. And this is only one example, then I put the CPA code almost in all my websites and made ten times better than before. Yes making money on the web does not have to be so hard and big time consuming. You just need to use the right tools and my favorite is [CPALeal](#).

Make money with CPALead affiliate program and YouTube

YouTube is a great place to advertise your products and monetize them with [CPALead](#) affiliate program. If you have a movie site or video blog than you can really attract traffic from YouTube to your site and it can happen really fast.

All you have to do is to install the CPALead gateway code after your [registered to this CPA affiliate program](#). Every page you had pasted the html code will be blocked to the viewer and unblocking it is possible only after a survey is completed. In this way you will get around few dollars for each person who would like to watch the videos on your site.

The next step is to create a short video; the recommend length is about 30 seconds. Include in the video a short version of the original movie in your website or if you have something that people would be willing to answer survey to gain access, then include a short version of that product or content. It is very important that you will add a link at the bottom of your video some the viewer will know exactly where they have to browse to get your movies.

Uploading the video to YouTube is very simple, the most important things in this process is to include your keywords in the title, description and tags. Do not forget to put a link to your site in the description field of the video so it will be very easy to the viewer to browse to your web site.

The people who make the most money over the internet with [CPALead surveys](#) are those who use YouTube to drive traffic to their movie sites. Some of them makes more than 500\$ a day with this method. I truly think that this business model will be more profitable then pay per view because it is much easier for the viewer to complete a short CPALead survey that to pay for the content.

Crazy ideas to make money with CPALead affiliate program

It is very well known fact that the most outrageous internet marketers are those who success more. In order to success with affiliate programs such as [CPALead](#) you have to think out of the box. The more creative you will be - the more money you will make because if you do what everyone does than you will have lots of competition and you will not be unique.

If you are the first one to invent something like a product or good content, than everyone will be interested in what you have to offer, and by the time other affiliate marketers try to copy your work, you will be already making big money over the internet and even move to the next best thing.

For example, I tried to market a [cookie recipe](#) over the internet and it became a huge success. There is a very well known [urban legend](#) about a cookie recipe that costs 250\$. So what I have done is to monetize this unique story and create curious around this topic to make people want to [download the famous 250\\$ cookie recipe for free](#). Then I created a blog at this topic and described the whole crazy (but true?) story. After the visitors where reading the blog they were very curious to get access to this cookie recipe. So in order to unblock the content they had to answer a survey and for each one I got around 1.00\$. I have to admit that I made more than 250\$ just by creating a simple blog with a cookie recipe and [CPALead](#) affiliate program.

Sometimes the most profitable ideas are the simplest ideas. You don't have to create big products and invest time and money to gain fast profit with [CPALead](#) affiliate program. You can really start with nothing and after a while get significant income from your crazy ideas!
